

PE Day

Every Thursday, children are to come into school dressed in their PE kit and will wear it all day. We will begin monitoring if the children are wearing the correct uniform and correct PE Kit.

Children will also be going swimming every Monday.

This is compulsory.

Children must bring swimming kit on **Mondays**.

Reading Books

Reading is one of our key priorities at Field View. Your child will regularly read to staff within school, and we will also send out an age-appropriate book for you to read with them at home.

Once a parent has signed to say a child has read their book it will be changed. A "Brag Tag" will be (a bead to add to their necklace).

Please can children's books be returned to school **every day**.

Dates for your diary

Every Monday: Swimming

3/1/23 – School opens.

23/1/23 – Year 4 Fire Safety Talk.

10/2/23 – International Day of Women and Girls in Science.

14/2/23 – Safer Internet Day.

17/2/23 – INSET DAY

WB 20/2/23 – Half Term

We are learning...

Our science topic this half term is States of Matter. We are going to be learning all about solids, liquids and gases. We will be carrying out scientific enquiries into these states of matter and asking and answering questions about them.

In Music, we will be having Anthem Voices which we thoroughly enjoyed during our Autumn term! We will be learning all about singing and moving with our Anthem Voices coach.

In Geography, we are going to be learning all about rivers and water cycles.

In Art, we are going to be learning about Sonia Delaunay and express our opinions on famous art works. We are also going to be creating our own art works inspired by Sonia Delaunay.

We are also focusing on our new school values: Respect, Honesty and Perseverance, while also following our school rules: Ready, Respect, Safe.

Family Challenge

In Year 4, our focus artist is Sonia Delaunay. We would like to ask families of children to help create an artistic piece, based on the style of Sonia Delaunay.

We are also going to be looking at the water cycle in our Science and Geography lessons. Families could alternatively create their very own water cycle at home.
