

### Library books and homework

Each Thursday your child will be given a library book of their choice. Would you please send your child in with their library book each Thursday so we can help change it for them. Don't forget homework books too.

Teaching Assistant

### Muddy Monday

In nursery we may get a little messy!

This is because our little minds and hands are learning, when messy we have been showing curiosity, imagination and gaining confidence.

Pen and paint on clothes show that I'm exploring lots of ways to be creative. In our mud kitchen we have used our senses and our imagination to create mud pies and silly soups. Exploring water is giving me lots of maths and scientific skills. We love filling and emptying but my clothes may get a little wet. Exploring playdough and messy play such as foam and gloop help develop my fine motor skills to help me when I learn to write.

Teaching Assistant

### Please Remember

Monday – Muddy Mondays – Will be starting back soon when the warmer and brighter days are here.

Friday – P.E. clothes – trainers and hoody.

Spare bag of clothes to change into just in case of accidents.

### Our Topics

The farmyard.

This half term our topic will be farmyard. We will be looking at who lives on a farm, including the farmer and all the farm animals. We will be learning all of the animals names, the name of their babies, and some exciting facts about all the animals.

We will also be looking at what else grows on a farm, including vegetables and fruit. We will be tasting lots of fresh fruit and vegetables and seeing what we like and don't like.

The first week back we have a treat for the children. Farm on wheels will be visiting us and the children will be meeting lots of baby animals who have been born this spring. We will also have the excitement of watching eggs being delivered and watching the crack and hatch into chicks and watching them grow over a week.

### Family Challenge

This half term it's the beginning of spring, could you go on a spring watch walk and can you take photos of any signs of spring that you see. It may be tiny buds on a tree, or a flower starting to grow.

Photos can be sent over by email. Our email is below.
